**Re: January 14<sup>th</sup> - LMC Healthcare Session**

Dear LMC Class:

Your next virtual session as the LMC Class of 2021 will be held on **Thursday, January 14**. The session focus will be on multiple topics and issues affecting healthcare.

As the LMC Healthcare Session Director, I am excited to start your day off with a historical personal perspective of healthcare in our county, move on to legislative issues both local and national, and then spend the remainder of the morning hearing from and asking questions of four of Montgomery County's hospitals CEOs.

We are fortunate in Montgomery County to have state-of-the-art hospitals and healthcare facilities, exceptional physicians, skilled nurses and a wealth of experienced healthcare professionals. Our agenda for the second part of the day is intended to educate and expand your minds on alternative healthcare resources offered in this county, the opioid crises facing businesses today and address the reality of "end of life" issues.

We also look forward to taking you on a few virtual hospital tours and engaging in thoughtful discussion throughout the day.

Sincerely,

A handwritten signature in blue ink that reads "Linda Nelson".

Linda Nelson  
Director of Business Development and Regional Marketing  
Memorial Hermann The Woodlands Medical Center
