Bio

Since 1971, Commissioner Charlie Riley has called Montgomery County home. He has worked to build the legacy of Precinct 2 with conservative ideals that promote the family values that are critical for a promising future. His strong and stable leadership focuses on developing an infrastructure that will allow for smart mobility options for commuters and provide easier navigation throughout Precinct 2 and Montgomery County. Besides roads and bridges, the Commissioner is responsible for recycling facilities, county parks, county sports complexes, and county community buildings. He also is one of five who make up the Montgomery County Commissioners Court, responsible for approving the county's budget as a whole and planning for future growth and challenges.

Commissioner Riley was the Operations Manager for Precinct 2 for 13 years prior to being elected Commissioner in 2014. He takes to heart the faith of the community whom he represents to work for the people. Discussing current and future goals with local neighborhood associations, combined with active listening and working together, Commissioner Riley endeavors to make Precinct 2 a sustainable and resilient community by leading the development of safety, infrastructure and livability in Montgomery County. He realizes his obligation is to serve the past, present and the future.
