**Re: January 12<sup>th</sup> - LMC Healthcare Session**

Dear LMC Class:

Your next session as the LMC Class of 2023 will be held on **Thursday, January 12**. This session's focus will be on multiple topics and issues affecting healthcare.

As the LMC Healthcare Session Director, I am excited to start your day off with a taped historical personal perspective of healthcare in our county, move on to legislative issues both local and national, and finish the morning discussing both the mental health crises facing our community today and address the reality of "end of life" issues.

We are fortunate in Montgomery County to have state-of-the-art hospitals and healthcare facilities, exceptional physicians, skilled nurses and a wealth of experienced healthcare professionals. Our agenda for the second part of the day is intended to educate and expand your minds on alternative healthcare resources offered in this county and innovations in the healthcare sphere.

We also look forward to taking you on a tour of St. Luke's Health – The Woodlands Hospital and finally finish up the day with an engaging Hospital CEO panel.

Be prepared to ask those healthcare questions you have been wondering about.

Sincerely,

A handwritten signature in blue ink that reads "Linda Nelson".

Linda Nelson  
Director of Business Development and Regional Marketing  
Memorial Hermann The Woodlands Medical Center
